Our Services

Available anywhere in the U.S. and Europe.

Benefits Analysis — Assessing your needs and determining in what situations you would benefit from using an InfoSec & Privacy Platform.

Consulting & Project Specific Advice

Our team will support you in all your privacy and information security processes.
This could be just a few hours for simple topics up to a full compliance project.

Starting

EUR 150/hour

Tailored Workshops & Training Programs

We offer various workshops such as for GAP Analysis or to resolve specific topics. Oftentimes a workshop is the ideal starting point to a full project.

Starting

Privacy — EUR 1.200 (Half day)

InfoSec — EUR 1.500 (One day)

Ongoing DPO & CISO support

Our team can support you with time and material based DPO and CISO service.
You can also take advantage of our flat fee DPO and CISO packages.

Starting

EUR 6.000 (year)

Our Services

Available anywhere in the U.S. and Europe.

Vulnerability Scan & Penetration Testing (IT Security)

Custom quote upon request.

See below indications for past projects.

- Vulnerability scan — Our team carried out a vulnerability scan on a web application by an SaaS Startup in the HR context. Project duration was 1 week until final report. **EUR 5.500**

- Penetration testing and vulnerability scan — Our team carried out a vulnerability scan on a cloud based health care application and a manual penetration test on 40 interfaces. The application contained numerous software products including MS servers. Project duration was 4 weeks until final report. **EUR 25.000**

- Penetration testing — Our team carried out a penetration test on a large Enterprise web application with hundreds of APIs. Project duration was 6 months until final report. **EUR 245.000**

Representative Services

Any company marketing products and services to European or UK customers is required to appoint a Representative.

UK GBP 1.500/per year

EU EUR 600/per year
